The Innovative Leader of Archival Protective Holders

And, the legend lives on...

If It's Worth Collecting, It's Worth a Pro-Mold Protective Holder!

PRO-MOLD Table of Contents

Would you willingly put your money in an unsound investment? Of course not. So why would you store your prized investments in low-quality protective holders? At **Pro-Mold** we understand the need to make high quality, archival safe, protective holders. In 1991, we realized our own valuable collectibles were vulnerable due to poor quality plastic holder protection. So we decided to make our own holders — **designed by collectors for collectors.**

Pro-Mold is a plastic injection molding company that manufactures various kinds of protective holders for collectibles. These holders include trading card holders and memorabilia holders. Our reputation is well-known throughout the collectible industry for the high quality of product that we produce. More importantly, all of our products are archival safe so you can be assured that your investments and precious treasures will be fully protected for many years to come.

PRO-MOLD And, the legend lives on...

Plastic Boxes

Tired of those hinges breaking on your plastic boxes? Try our non-hinged, two piece snap design multiple card holders. They're strong and sturdy, with square corners inside so the cards' corners will not get damaged.

These boxes range from a 10 count to a 400 count and will also fit in standard set storage and monster boxes. Our new slider boxes have a new and improved design over the existing slider boxes from our competitors.

The Pro-Mold Slider Boxes have two distinct advantages: the bottoms don't fall off when you pick them up and they have an open area on the bottom piece where the cards sit. By having an open area in the bottom piece where the cards rest, you can now pull the cards out by the side of the deck rather than turning the bottom piece upside down. The bottom piece has a tight and secure precision fit which doesn't allow it to fall when you pick up the box.

Holds one Beanie Baby or 400 regular trading cards.

400 Count Snap Box / PC400

Holds 100 regular trading cards.

100 Count Snap Box / PC100

Holds 100 regular trading cards.

100 Count Slider Box / SB100

Introduction to the Pro-Mold Trading Card Holder

Mini-Snap Card Holders

All Pro-Mold Snap-Design holders feature a precision fit, two-piece snap design. The Pro-Mold Mini-Snap was an original design of Pro-Mold and it's very popular because it fits in the standard set storage boxes.

Screwdown Card Holders

Pro-Mold has 3 different versions of screwdowns available: **One-Screw**, **Premium One-Screw**, and **Four-Screw**. The One-Screw Screwdown is the most popular screwdown on the market today. This holder has all the advantages of the traditional four-screw screwdown with only one screw to screw with, so to speak.

We also have a line of 1/2" Thick Premium One-Screw Screwdowns for your super expensive cards.

The Pro-Mold Four-Screw Screwdowns are the highest quality of their kind on the market. The recessed screwdown has a recessed area with a bevel on the lid that gives the card a 3-D View.

Magnetic Card Holders

While certainly not the first one on the market, the **Pro-Mold Magnetic Holder** is definitely the best magnetic trading card holder on the market. The Pro-Mold Magnetic Trading Card Holder features a gold magnet that provides a super-strong enclosure, which allows the holder to stay closed when dropped while it's still easy enough to open up and put a trading card in it.

This holder features a tab on the top of each side that allows you to use a quarter or set of fingernails to open the holder up easily.

These holders also feature recessed, "arrowhead" corners to protect the card's corners if you drop them. Check out our UV protectant versions that block out over 99% of harmful UV Rays!

Snap Design Sizes Available: Holders for 10, 25, 50, 100, 150, 250, and 400 trading cards
Slider Box Design Sizes Available: Holders for 25, 50, and 100 trading cards
